Contractor:	Metals and Materials Engineers, LLC Rockdale Pipeline, Inc.
Estimated Value:	\$ -0-
Scope Summary:	The Department of Watershed Management has implemented two (2) types of Agreements regarding the maintenance of large water meters. One Agreement consists of the "testing and analysis" of large water meters (FC-7697-03), while the second Agreement (FC-6004007832) consists of the "repair and replacement" of large water meters. The

Department of Watershed Management has concluded that it is to the benefit of the City that the same Contractor cannot hold both Agreements at the same time; this is a form of checks and balances. The Department of Watershed Management recently gained control of the City water system from United Water and there are several meters that need to be repaired and replaced throughout the City. Therefore, DWM has decided to use Metals and Materials Engineers, LLC and Rockdale Pipeline, Inc. to undertake this major task.
